POSITIVE CONTRIBUTION RECOGNITION ★ DREAMS COME TRUE

Bermuda is another world
700 miles at sea
And the way the people greet you
Is like a friendly melody
To touch a flower in the morning
To listen to a honey bee
To hear a bird who sings a song
Just to say that he is free

Bermuda is another world
Turn around, I'll tell you why
Just to watch the morning sunrise
From the sea up to the sky
To look across on the harbour
And see the multi-colored sails
To waterski on the water
That always leaves a snowy trail

Bermuda is another world
Turn around, and you'll be gone
But there will always be a memory
That will linger on and on
And someday I'll hear you say,
Just as I have said today...
Bermuda is another world

Founders Award

The Hon. E. David Burt, JP, MP

Good evening everyone,

It's an honour to join you tonight as we celebrate the men and women who build Bermuda. Those whose hard work, skill, and dedication shape the skyline of our island and the strength of our communities.

Events like this remind us that construction is not just about buildings, it is about people. It is about Bermudians who rise early, work hard, and take pride in their craft. It is about those who turn blueprints into reality, dreams into foundations, and challenges into progress.

To the Bermuda Construction Safety Council, thank you for the work that you do every day to keep our workers safe, to promote excellence, and to lift up the standards of this vital industry. A special shout-out to Brendon Harris, a founding trustee of Bermuda's safety culture and a true pillar of our island's construction heritage.

You are helping to ensure that every Bermudian who steps onto a worksite goes home safely, confident in their skills and proud of what they've built.

When times were tough and projects slowed, this Government stayed committed, supporting local contractors, investing in our communities, and keeping Bermudians working. Because progress means nothing if our people are left behind.

Now, construction is picking up. Cranes are back. Training is happening. Bermudians are building again. And one thing is clear: AI cannot do construction.

So, to tonight's award winners, congratulations. You remind us that when Bermudians are given the opportunity to succeed, there is nothing we cannot build together.

Thank you, enjoy the evening, and may we all continue to build Bermuda safely, proudly, and together.

The Hon. E. David Burt, JP, MP
